PACKING LIST	152

Since 2019, **Epicentr Ceramic Corporation Ceramic Tile Plant** has been manufacturing products at the highest international quality standards, which have been appreciated in more than 25 countries.

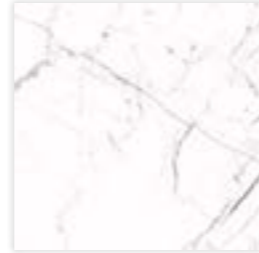

We have implemented the most innovative production technologies, such as digital dry dyeing system "**Easy Color Boost**", dry rectification technology, polishing line with BMR "Super Shine" technology, digital quality control system "**QUALITRON**" and **Continua+** line which is the first in Ukraine.

Our highly qualified team of professionals and engineers has created unique production facilities and engineering solutions based on advanced equipment from Italian manufacturers **TM SACMI**, **SYSTEM** and **BMR**, which allow us to produce a wide range of innovative products of impeccable quality.

But for us, ceramics is not only about high technology, state-of-the-art equipment and carefully selected raw materials.

This is also the result of the inspired, devoted work of our employees, who are the best professionals in the industry, and their love invested into this product.
